LOBBY

A distinguished modern treatment effectively combines rich coloring and dignity of design. Its luxurious comfort is inviting. It affords a pleasant place for relaxation or appointments.

BEDROOMS

Furnishings of bedrooms have been selected because of their convenience and comfort. All rooms enjoy abundant fresh air and sunshine and some have access to delightful roof terraces.

THE NEW HOTEL WELLINGTON

Ideally Located for Visitors To New York City

IT IS HARD to imagine a hotel which embraces more than is pleasing, comfortable and convenient for its guests than does the new Wellington. Decorations and appointments are keyed in the modern manner and present an atmosphere that is at once inviting. Not only is there every facility within to make for your comfort but the location is exceptionally desirable for New York visitors.

¶ The Metropolis' amazing rapid transit system and a Broadway subway station at the very door—make The Wellington's location a handy one for the visitor with business or interests in any other quarter of the city.

¶ Today, the new Wellington occupies the center of the new Midtown zone. Accurately enough located to assure the quiet that the busy visitor requires, it is at the same time within quick walking distance of the things which bring most visitors to New York.

¶ Just below the new hotel is famous Times Square itself, with its brilliant cluster of theatres. Carnegie Hall and other musical concert halls which have made this the foremost musical community of the North American continent is but a block north. And the General Motors building, commanding the automobile row of rows, is two blocks away.

¶ It is less than a ten minutes walk from the Wellington to renowned Madison Square Garden, arena of the Greatest American sporting events and national expositions.

¶ Bright Fifty-seventh Street, second not even to Fifth Avenue in the smartness of its shops, is just to the north. Fifth Avenue busses plying this important crosstown thoroughfare carry the visitor through the entire fashionable shopping district.

FEATURES of THE NEW HOTEL WELLINGTON
